

South Somerset District Council

Five-Year Housing Land Supply Paper

October 2019

1. Introduction

- 1.1. This report sets out the latest position on the five-year housing land supply for South Somerset District Council (SSDC), for the five-year period from 1st April 2019 to 31st March 2024. The information on extant planning applications and pending applications is accurate up to 31st August 2019.
- 1.2. The Council recognises that the information in this report can only represent a ‘snapshot’ in time. The position regarding the five-year housing land supply is constantly subject to change, whilst every house built, each planning permission granted, and every major change to the delivery timetable for a housing site will affect the position.

2. Background and Context

National policy

- 2.1. The National Planning Policy Framework (NPPF) (2019) requires that Local Planning Authorities (LPAs) should use their evidence base to ensure that their Local Plan meets the identified housing need for their area.
- 2.2. Separate guidance¹ sets out a standard method for LPAs to use to determine the minimum number of homes needed over the plan period, which will be used to inform the Local Plan Review currently in preparation.
- 2.3. The NPPF requires LPAs to identify and update annually a supply of specific deliverable² sites sufficient to provide five years’ worth of housing against their housing requirements.

1

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/728247/How_is_a_minimum_annual_local_housing_need_figure_calculated_using_the_standard_method.pdf

² The NPPF (2019) defines a deliverable site – “To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).

b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years “

For housing, a scheme is considered to be “major development” where 10 or more homes will be provided or the site has an area of 0.5 hectares or more.

2.4. The supply of specific deliverable sites should include a buffer (moved forward from later in the plan period). The buffer can range between 5-20% in accordance with the following circumstances set by the NPPF:

- 5% to ensure choice and competition in the market for land; or
- 10% where a LPA wishes to demonstrate a five year supply of deliverable sites through an annual position statement, or recently adopted plan, to account for fluctuations in the market during that year, or
- 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply.

2.5 A five year supply of deliverable housing sites, with the appropriate buffer, can be demonstrated in a number of circumstances; including where it has been established in a recently adopted plan, or in a subsequent annual position statement which has been produced through engagement with developers and others who have an impact on delivery, and been considered by, and incorporates the recommendations where necessary of the Secretary of State.

2.6 Since it was introduced in 2018 any significant under-delivery will be measured through the Housing Delivery Test (HDT). The HDT is an annual measurement of housing delivery over the previous three years and a measurement rule book is produced to set out how this is calculated³. The HDT results are published annually by the Ministry for Housing, Communities and Local Government, and are due to be made available in November 2019.

2.7 In the HDT results published in February 2019 South Somerset District Council achieved a result of 104% therefore for the purposes of this Five-Year Housing Land Supply position statement, a buffer of 5% is being applied.

Local Policy

2.8 The Council adopted the South Somerset Local Plan (2006 – 2028) in March 2015; and this confirms the District Council's housing requirement.

3

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/728523/HDT_Measurement_Rule_Book.pdf

2.9 The Local Plan sets out a housing requirement of 15,950 dwellings to be delivered over the 22 year period. This equates to an annualised average of 725 dwellings per annum.

2.10 The Local Plan is presently undergoing a Review. An Issues and Options consultation was undertaken between October 2017 and January 2018; responses informed the Preferred Options consultation, which ran from June until September this year.

3 Determining the Five-year Housing Requirement

Overview

3.1 In order to reach a conclusion on whether or not the Council can currently demonstrate a five-year supply of housing land, the following component parts need to be examined:

- The basic annual housing requirement;
- The five-year basic housing requirement;
- The net housing completions since the start of the Local Plan period in 2006;
- Whether there is any shortfall against the Local Plan target which needs to be addressed;
- Any track record of 'significant under delivery' determined through the HDT;
- The appropriate buffer; and
- The buffer to be applied to the basic five-year housing requirement figure and the shortfall in housing delivery.

The basic annual housing requirement

3.2 The Local Plan is the starting point for calculating the five-year housing land supply and Policy SS5: Delivering New Housing Growth, sets out the housing requirement.

3.3 The basic housing requirement figures set out in SSDC's Local Plan are:

- an overall housing requirement between 2006 and 2028 of **15,950 dwellings**; and
- an annualised housing requirement of **725 dwellings** pa (15,950 / 22 years).

3.4 The Council has produced other evidence base documents to support the Review of the Local Plan including the Somerset Strategic Housing Market Assessment (SHMA)⁴ which suggested an objectively assessed need (OAN) for housing for the District⁵.

⁴ <https://www.southsomerset.gov.uk/your-council/your-council-plan-and-strategies/planning-policy/local-plan-review-2016-2036/>

⁵ 660 dwellings per year (this figure was consulted on during the Issues & Options consultation in 2018)

However, in July 2018, the Government published guidance on a new Standardised Methodology for Assessing Housing Need. As a result the figure for SSDC, calculates as 716 dwellings per annum. This figure was used for the Local Plan Review Preferred Options consultation.

The five-year basic housing requirement

- 3.5 Determining the five-year basic housing requirement is calculated by multiplying the annual requirement in the adopted Local Plan, over a five-year period. This equates to **3,625 dwellings** (725 x 5).

Housing completions since the start of the Local Plan

- 3.6 In order to ensure that the identified housing need is being met, and to understand whether the Local Plan is 'on track' to deliver the agreed scale of growth, it is necessary to analyse housing provision over the Local Plan period. The level of completions in South Somerset since 2006 is set out in Table 1 below.

**Table 1: South Somerset District Council – Net Housing Completions
(2006/2007 – 2018/2019)**

	2006/ 2007	2007/ 2008	2008/ 2009	2009/ 2010	2010/ 2011	2011/ 2012	2012/ 2013	2013/ 2014	2014/2015	2015/ 2016	2016/ 2017	2017/ 2018	2018/ 2019	Total
Local Plan Target	725	725	725	725	725	725	725	725	725	725	725	725	725	9425
Completions (net)	620	724	547	482	984	480	528	511	770	606	616	563	650	8081
Progress Against Target Per Annum	-105	-1	-178	-243	259	-245	-197	-214	45	-119	-109	-162	-75	
Cumulative Shortfall	-105	-106	-284	-527	-268	-513	-710	-924	-879	-998	-1107	-1269	-1344	-1344

The shortfall in housing delivery

- 3.7 Analysing the level of net housing completions against the intended housing delivery target shows that there has been a shortfall in terms of meeting the housing target since 2006. The current shortfall in terms of what the Local Plan should have delivered against what has been delivered is **1,344 dwellings**.

The shortfall to be addressed

- 3.8 The Planning Practice Guidance includes a statement for how the shortfall should be addressed. This means that the shortfall should be addressed in the next five years of the plan period; known as the “Sedgefield” method. This would mean that the entirety of the current shortfall is added to the five-year basic housing requirement figure. As such, the revised requirement would be 4,969 dwellings (3,625 + 1,344).

The appropriate buffer to be added

- 3.9 The new NPPF (2019) at paragraph 73 requires a 20% buffer to be applied where there has been significant under delivery of housing over the previous three years. It states in footnote 39 that from November 2018, this will be measured against the Housing Delivery Test. Significant under delivery is where the result indicates that delivery was below 85% of the housing requirement.
- 3.10 Based on the Government’s own methodology for calculating the test result as set out in the Housing Delivery Test Measurement Rule Book, July 2018⁶, in February 2019 South Somerset District Council achieved a Housing Delivery Test result of 104% therefore a 5% buffer has been applied. It is anticipated that the 2019 result will not fall below the 85%. However, if it does then the Council will publish an addendum to this report indicating what the supply is with a 20% buffer.
- 3.11 The PPG clarifies that the appropriate buffer should be applied to the housing requirement, and any shortfall in delivery. This should be addressed in the first five years. Buffers are not in themselves cumulative and the appropriate one should be applied depending on the circumstances.

6

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/728523/HDT_Measurement_Rule_Book.pdf

Summary

3.12 Table 2 provides a summary of the current five-year housing requirement in South Somerset. The overall conclusion is that the Council will need to be able to demonstrate a land supply capable of delivering **5,217 dwellings** in the next five years, or an annual completion rate of **1,043 dwellings**⁷ (rounded). This is significantly higher than the development industry has managed to deliver in the District each year since 2006.

Table 2: Overview of Component Parts of Five-year Housing Requirement

Component of Five-year Housing Requirement	Method	Total
Basic Housing Requirement (annualised)	(15,950 / 22)	725
Basic Housing Requirement over a five-year period	(725 x 5)	3625
Completions Since 2006		8081
Current Identified Shortfall	(9425 – 8081)	1344
Basic Requirement Plus Shortfall	(3625 + 1344)	4969
Basic Requirement Plus Shortfall with 5% Buffer Added	(4969 x 1.05)	5217
Five-year annual completion rate (shortfall + 5% buffer)	(5217 / 5)	1043

4 Identifying the Five-Year Housing Land Supply

Overview

4.1 The NPPF provides the context from which the supply of housing sites can be determined. The NPPF at Paragraph 73 states that LPAs should: *“identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing...”* (See earlier footnote 2).

4.2 The following component parts of the supply of land for housing have been included and Appendix 1 sets out the Council’s supply of housing sites in detail.

Sites with planning permission

4.3 The Council has identified extant sites within the District which benefit from full or outline planning permission (including reserved matters, prior approval, or permitted development) from 1st April 2006 to 31st August 2019.

4.4 All outline permissions under 10 dwellings have been included in the first five years. Outline permissions for major development, as defined in the NPPF⁸ are not generally included within the first five years’ housing land supply, unless there are clear reasons

⁷ 5217 divided by 5 = 1,043.4

⁸ **Major development:** For housing, development where 10 or more homes will be provided, or the site has an area of 0.5 hectares or more.

and expectations that the site will be approved and come forward and be delivered within that timeframe, as agreed with the relevant developers through the Large Sites Survey undertaken in 2019. This involved contacting developers and landowners or their agents of all major sites with planning permission. Where no feedback was forthcoming, the deliverability of major sites was based on any feedback from the previous year's (2018) survey; analysis of any completions during 2018/19 regarding build out rates; and discussions with development management officers.

- 4.5 The Council has also documented schemes where a planning application is pending a decision. These are also not generally included within the housing land supply, unless there are clear reasons and expectations that the site will be approved and come forward and be delivered within that timeframe, as agreed with the relevant developers through the Large Sites Survey undertaken in 2019. If a pending decision is for an application on a site that has been assessed as suitable, available and developable within the HELAA, the scheme is then included within years 6-10/11-15 depending on the scale of delivery.
- 4.6 In analysing current and future planning applications and planning permissions, the changes in permitted development in relation to use classes and conversions (including barn conversions) also generate additional housing supply. For the avoidance of doubt these types of development where it is shown that they generate new housing are included in the calculation of new housing delivery and future housing supply.
- 4.7 Furthermore, the Council has seen an increase in the number of care homes and extra care homes within the District; and their delivery is included in the calculation of new housing delivery and future housing supply. This is based on applying the ratio of 1.8 to the number of rooms provided, which follows the methodology published in the Housing Delivery Test Measurement Rule Book.

Sites within the Housing and Employment Land Availability Assessment

- 4.8 Sites within the Housing and Employment Land Availability Assessment (HELAA) have been identified in conjunction with the development industry and sites have been deemed as 'suitable', 'available' and 'developable'. HELAA sites without planning permission (or where planning permission is pending) are included within the later part of the housing trajectory (i.e. Years 6-10 and Years 11-15).

Windfall Sites

- 4.9 The Council has consistently advocated that a proportion of its housing delivery occurs through windfall sites. The geographical extent and rural nature of the District, along with the range of settlement types and size, lends itself to small scale sites coming forward with no prior warning. This is particularly true in the smallest settlements in the District where minor infill plots and single home applications are commonplace. Similarly, Government's relaxation of permitted development rights and change of use has resulted in additional windfalls.
- 4.10 The Council has adopted a conservative approach to avoid over-reliance on windfalls contributing to supply. The expectation is that the number of dwellings forthcoming will be greater, but the allowance included in the overall supply is 20 dwellings per annum. The consequence is that 100 dwellings have been added to the supply; this represents less than 3% of the Council's overall five-year supply (3,625 dwellings). The Council believes this is an extremely conservative approach to windfall given the nature of development proposals in South Somerset.

5 Conclusion

- 5.1 The Council's five-year housing land supply requirement is currently **5,217 dwellings**.
- 5.2 Based upon the current assessment of future housing land supply for the period 1st April 2019 to 31st March 2024, the Council's deliverable five-year housing land supply is **4,711 dwellings**.
- 5.3 As such, the Council cannot currently demonstrate a five-year supply of housing sites and can only demonstrate a supply equivalent to about **4.5 years**.
- 5.4 This means that the target figure for the next five-year period will grow, however, once the Local Plan Review is adopted, the target will be reset, as any past under delivery is factored in by the standard method for calculating housing need in the district.
- 5.5 A major factor in the shortfall is that the level of forecast completions in the District's largest settlements in the next five years are still not meeting expectations. Separately – and in combination – key sites and urban extensions in Yeovil, Chard and Crewkerne are not delivering the necessary numbers of dwellings to keep the overall District figures on track.

5.6 The overall conclusion has significant implications for the Council's decision-making on planning applications.

5.7 Paragraph 11 of the NPPF notes that the relevant policies for the supply of housing should not be considered up-to-date if a local planning authority cannot demonstrate a five-year housing land supply:

*For **decision-taking** this means:*

c) approving development proposals that accord with an up-to-date development plan without delay; or

d) where there are no relevant development plan policies, or the policies which are most important for determining the application are out-of-date, granting permission unless:

i. the application of policies in this Framework that protect areas or assets of particular importance provides a clear reason for refusing the development proposed; or

ii. any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole.

5.8 The associated footnote 7 in the NPPF states that the above policies are out of date in *“situations where the local planning authority cannot demonstrate a five year supply of deliverable housing sites (with the appropriate buffer, as set out in paragraph 73); or where the Housing Delivery Test indicates that the delivery of housing was substantially below (less than 75% of) the housing requirement over the previous three years.....”*

5.9 However, this is not the end of the matter. The fact that policies relevant to the supply of housing are deemed “out-of-date” by reference to the NPPF does not mean they should be ignored. As confirmed by several judgements the NPPF does not displace the statutory framework for the determination of planning applications and does not prescribe that little or no weight be given to housing supply policies, that is a matter for the judgement of the decision-maker dealing with a particular planning application and the facts of each individual case (see the Supreme Court judgment Suffolk Coastal District Council (Hopkins Homes), High Court judgments of Crane

and Edward Ware Homes Ltd and Secretary of State decision of Leeds City Council)⁹.

- 5.16 The judgement of the Supreme Court in *Suffolk Coastal* makes it clear that the weight to be given to policies which are out-of-date by virtue of a failure to demonstrate a five year supply, is a matter for the decision maker (paragraphs 58 and 59).
- 5.17 The judgement of Lindblom J in Crane¹⁰ is clear, at Paragraph 70, when he states: *“the decision-maker is left to judge, in the particular circumstances of the case before him, how much weight should be given to conflict with a plan whose policies for the supply of housing are out of date. This is not a matter of law; it is a matter of planning judgement”*.
- 5.18 Lindblom J goes on to note (Paragraph 71) that the weight to be given *“will vary according to the circumstances, including, for example, the extent to which the policies actually fall short of providing for the required five-year supply, and the prospect of development soon coming forward to make up the shortfall.”*
- 5.19 This approach is reflected in Edward Ware Homes Ltd¹¹ (Paragraph 26) which states the ‘planning judgement’ should take into account *“such matters as the nature of the shortfall and the reasons for, or causes of, that shortfall and any evidence as to how it is likely to be overcome”*.
- 5.20 The need to still account for relevant policies relating to the supply of housing is also underlined in the Edward Ware Homes Ltd ruling¹².

“Thus, paragraphs 14 and 49 of the NPPF do not prevent a decision-maker from identifying sound evidence and reasons as to why the justification for and objectives of (for example) a housing distribution policy are of continuing importance and therefore weight. In that sense when a decision-maker reaches the stage of assessing the weight to be attached to that policy, he or she may properly arrive at a reasoned conclusion that the policy is up-to-date, notwithstanding paragraphs 14 and 49 of the NPPF”.

⁹ *Suffolk Coastal District Council v Hopkins Homes Ltd & Anor, Crane v Secretary of State for Communities and Local Government, Edward Ware Homes v Secretary of State for Communities and Local Government & Anor, Leeds City Council v Rockspring Hanover Property Unit Trust*

¹⁰ *Crane v Secretary of State for Communities and Local Government & Anor* [2015] EWHC 425 (Admin).

¹¹ *Edward Ware Homes Ltd v Secretary of State for Communities and Local Government & Anor* [2016] EWHC 103 (Admin), para 28 and 30.

¹² *Edward Ware Homes Ltd v Secretary of State for Communities and Local Government & Anor* [2016] EWHC 103 (Admin).

“In the present case the Inspector applied the correct approach... He decided that the rationale for the distribution policies in DW1 and SV1 continued to be strong notwithstanding the lack of a 5 year supply for the district as a whole”.

5.21 This position was confirmed by the Secretary of State in his consideration in July 2018, of the Inspector’s recommendation on an appeal made by Rockspring Hanover against Leeds City Council.

5.22 Finally, *Edward Ware*, provides authority that it is open to a decision maker to consider the performance of specific areas of a district in achieving a district wide five year supply, at paragraphs 36 and 37:

“I accept the Claimant’s submissions that the NPPF and the Core Strategy require the demonstration of a 5 year supply of housing land for the whole of the area of a local planning authority (or the Housing Market Area). But it does not follow that if such a supply cannot be demonstrated, then it is legally irrelevant for a decision-maker to consider the distribution of housing land supply in parts or sub-areas of the district, whether over 5 years or the plan period.

It is well-established that any consideration relating to the use and development of land, or which serves a planning purpose in that it relates to the character of the use of land, is legally capable of being a relevant planning consideration (Westminster City Council v Great Portland Estates Ltd [1985] A.C 661, 670; Stringer v Minister of Housing and Local Government [1970] 1WLR 1281 , 1294).”

5.23 Therefore to be clear, the absence of a five-year supply of housing land is not necessarily conclusive in favour of the grant of planning permission. Furthermore, and for the avoidance of doubt, Paragraph 11 of the NPPF is not irrefutable, and the analysis of material considerations may indeed move the decision-maker away from the presumption in favour of the grant of planning permission.

Appendix One – List of Housing Supply Sites

Site Name	HELAA Reference (if applicable)	Key Planning Application Number	Years 06 to 10 and 11 to 15		21-22	22-23	23-24	24-29	29-34	Total Housing Delivery (Net) 2019-2034	Description / Rationale
			Pending planning application								
			HELAA site only								
			19-20	20-21							
YEOVIL											
Brimsmore, Key Site, Thorne Lane		05/00753/OUT 16/00978/REM 17/03214/REM 17/04400/REM	45	60	60	60	60	300	215	800	Outline permission 05/00753/OUT (830) approved in March 2005. Subsequent reserved matters applications approved 16/00978/REM (289), (this replaces 11/00362/REM) BUT only intending to develop 262 under this application. 17/03214/REM – 31 dwgs – this is completed .17/0440/REM (642) planning permission approved 27/07/18 – 640 dwgs (lost 2 through amendments and includes the 31), Total to be developed = 262+640 = 902. Completions started in 2015 71 completions as at 31st as at March 2019. Potential for additional 73 plots to come forward, taking site over 975 dwellings. 800 left to be completed.
Land at Lufton - Key Site		10/01875/REM (696) 18/00586/FUL (net gain of 4)	100	100	100	103				403	Outline permission 05/00931/OUT (620) approved in March 2005. Subsequent reserved matters and full applications approved (10/01875/REM 96, 18/00586/FUL - planning permission pending consideration - to reconfigure the layout so that there will be 16 dwellings rather than the 12 originally approved so a net gain of 4). Site total is now 700 dwellings (some overlapping of applications). Completions started in 2014 with 297 completions as at 31st March 2019. Build out rate confirmed by developer through Large Site Survey 2019. Developer confirms 100 dwellings per year which is higher than previously achieved.
Bunford Heights, West Coker Road		13/01869/OUT 18/00176/REM	45	52						97	Outline planning permission 13/01869/OUT approved 09/11/15. Reserved matters permission (97) has been approved. Development has commenced. The build out rates have been confirmed through Large Site Survey 2019 with developers - Kier Living LTD and Abbey Manor Developments LTD.
Upper Mudford, Primrose Lane, Yeovil	E/MUDF/0002 & 0003, 0009	14/02554/OUT						150	615	765	Allocated Site - north east Sustainable Urban Extension. Outline Planning application pending consideration. Planning application scheduled for October 2019 Committee. Policy Y1 in Local Plan Review Preferred Options document, June 2019.
Land At Keyford, Dorchester Road, Yeovil	S/EACO/0024	15/01000/OUT						150	650	800	Allocated Site - southern Sustainable Urban Extension. Outline Planning application pending consideration. Planning application scheduled for November 2019 Committee. Policy Y1 in Local Plan Review Preferred Options document, June 2019.
15 Lyde Road & 1 Cromwell Road, Yeovil		02/01821/FUL						3		3	Extant planning permission (approved 13/09/02). Commenced with 1 complete and 3 not started.
Land Rear Of Old Barn Way, Yeovil		09/02073/FUL				12				12	Extant planning permission (approved 14/09/09). Commenced with footings laid.
Land Between Victoria Road, Cromwell Road & Lyde Road,		09/02146/REM		24						24	Extant planning permission (approved 16/10/09). Commenced with footings laid. Two blocks of flats approved - Block A 1-12, Block B 13-24. Large Sites Survey 2019 suggests 24 in 20/21.
103-107 Highfield Road, Yeovil		09/03111/FUL			6	7				13	Extant planning permission (approved 17/10/11). Demolition of existing bungalow, day centre and commercial/industrial buildings. Net gain is 13 dwellings as one bungalow demolished. Demolition complete, so technical start made.
73-77 Hendford Hill		12/00236/FUL						13		13	Extant planning permission (approved 30/06/12). Commenced, but currently in use as a car wash, pushed back to 22/29 based on Large Sites Survey 2019. Permission is for 13 flats in one building flats on ground floor, 4 on first floor and 1 maisonette.

Site Name	HELAA Reference (if applicable)	Planning Application Number	19-20	20-21	21-22	22-23	23-24	24-29	29-34	Total Housing Delivery (Net) 2019-2034	Description / Rationale
Land at Key Farm, Dorchester Road, Yeovil		12/03031/FUL	2							2	Extant planning permission (approved 10/12/12). Approval 13/04607/S73 makes changes to layout. Both dwellings commenced, one in 2016 and one in Feb 2018.
Land adjacent Old Cinema Bed Centre, Court Ash, Yeovil		12/03120/FUL					6			6	Extant planning permission (approved 04/09/12). Technical start made but due to lack of progress, pushed back from 19/20 to yr. 5 (23/24).
21 The Park, Yeovil		12/03941/FUL	1							1	Extant planning permission (approved 12/12/12). Commenced with demolition completed 31/03/14. Certificate of Lawfulness application submitted for lawful commencement in June 2018 and permitted. Given CLEUD - potential for delivery in 19/20.
Richmond Villa, 27 Higher Kingston, Yeovil		15/00065/FUL	6							6	Extant planning permission (approved 23/02/15). Application is to change an HMO and flat into 7 flats (net increase in 6 dwellings). Commenced.
Land off Stone Lane, Yeovil	S/YEWI/0008	15/00763/FUL			15	14				29	Extant planning permission (approved 28/03/17). Bungalows with age restriction (55+ years).
Black Horse Inn, The Avenue, Yeovil		13/04068/FUL		1						1	Extant planning permission (approved 23/01/14). Commenced
Allotment Gardens, Pen Mill Station Approach, Yeovil		15/03190/FUL	3							3	Extant planning permission (approved 03/12/15). Expires 03/12/18. Commenced
Land adj 40 Sunningdale Road, Yeovil		15/04918/OUT		1						1	Not a Major site, therefore delivery projected within years 1-5 as no clear evidence that homes will not be delivered in 5 years. Extant planning permission (approved 01/06/16). Expires 01/06/19.
142 Milford Road, Yeovil		16/00605/FUL		1						1	Extant planning permission (approved 26/05/16). Expires 26/05/19.
